

Welcome to Grafana Cloud

Our mission is to empower you to unite all your data — no matter where it lives — so your teams can analyze, take action, and make smart decisions. This kit gets you productive from day one.

Meet your team

Account Executive — your main point of contact

ON-DEMAND, BASED ON YOUR NEEDS

- **Technical Support** — troubleshooting, bugs & issues
- **Solutions Engineer** — solves new problems & use cases
- **Observability Architect** — shapes your observability strategy

ADDITIONAL OFFERINGS

- **Professional Services** — Grafana experts for hands-on implementation

Your onboarding checklist

- ☐ Identify project stakeholders to involve with the Grafana team
- ☐ Designate your organization's Grafana administrators
- ☐ Ensure that admins are invited to the Grafana organization
- ☐ Schedule a kick-off call with your Account Executive

Your first steps in Grafana Cloud as an admin

1

Log in or sign up

Head to grafana.com — or [create an account](#).

2

Select your organization

Choose it from the top-left dropdown list.

3

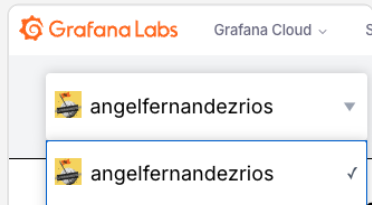

Deploy your stack

[Create a Cloud stack](#) in your region of choice.

How to contact Technical Support

1

Log in & select your org

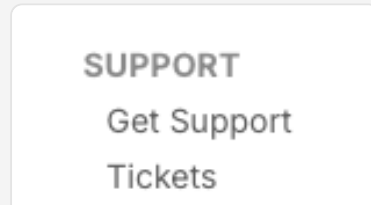

Sign in at grafana.com and choose your organization.

2

Open the support area

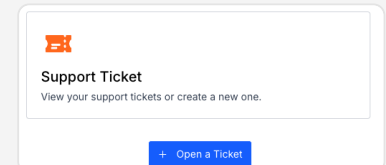

In the admin area, go to **SUPPORT** > **Get Support**.

3

Open a ticket

Select **Support ticket** > **+ Open a ticket**.

BEST PRACTICES FOR FASTER RESOLUTION

- Check the [System Status Page](#) first
- Share versions, logs, config files & screenshots
- Give detailed steps to reproduce the issue
- Watch for follow-up questions

Understand your billing

Your stack includes a [Cost Management & Billing](#) area where you can track your spend.

RECOMMENDED ON DAY ONE

1. Designate a billing contact for usage & billing alerts
2. Learn how product usage draws down your committed budget
3. Set up usage alerts to avoid surprises & react to spikes
